PRINCIPAL'S MESSAGE

We take this method to welcome Principal Jennings, his coaches and team, also the many friends of the Dunbar family who have come to share our Homecoming festivities with us. We hope that while you are here you will enjoy yourselves and forget the cares of the day. As one writer said, "Men cannot labor on always. They must have recreation. And if they have it not from healthful sources, they will be very likely to take it from poisoned fountains — or if they have pleasures which, though innocent, are forbidden by the maximums of public morality their very pleasures are liable to become poisoned fountains."

I wish to express my appreciation to the merchants and patrons for their support in helping us to publish this program.
